

AYRSHIRE ROADS ALLIANCE

Body Worn CCTV

Privacy Notice

This notice provides clarification on the use of body worn CCTV by our parking attendants and what information is collected through body worn CCTV recordings. It also provides information on the purpose of such recordings, how images are stored and retained and who you can contact should you require further information on your rights under data protection.

Body worn CCTV is required by our parking attendants to protect them against potential anti-social behaviour, conflict and false accusations. The CCTV units are worn overtly by our attendants and are only utilised when required. In other words, they do not continually capture images but are switched on by attendants when necessary.

Who is responsible for your information?

The Ayrshire Roads Alliance is a public sector partnership that delivers shared Council roads and transportation services to communities across East and South Ayrshire.

Personal information that is held and processed by each Council within the Partnership is processed in accordance with Data Protection Law. For information on the role of the Data Controller, Data Protection Officer and contact details for each Council, please refer to the Privacy Statement on the respective Councils' websites.

What personal data do we need and why?

Images of individuals may be collected on body worn CCTV units in the East and South Ayrshire areas. It is necessary to collect such images for the following purposes:

- To deter threatening or anti-social behaviour against our parking attendants;
- Corroboration of incident occurring when a parking attendant is on duty for investigation purposes;
- To reduce the scope of false allegations against parking attendants;
- To protect lone working parking attendants.
- To gather evidence of parking contraventions

How will we use your information?

The information captured on body worn CCTV units may be used in the following ways:

- To pass to the Police when criminal incidents occur;
- To corroborate incidents or parking offences in the absence of a third party witness.

What is the lawful basis for processing the data?

The processing of the images captured by body worn CCTV units is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the data controller. The body worn CCTV units may capture more sensitive information about individuals, including health details, race or ethnic origin and criminal behaviour. The processing of this information is necessary for reasons of substantial public interest and for the prevention or detection of unlawful acts and to carry out a key function as set out in law, namely ARA's obligations under the Road Traffic Act 1991 and the Road Traffic (Permitted Parking Area and Special Parking Area) (East Ayrshire Council) Designation Order 2012 and the Road Traffic (Permitted Parking Area and Special Parking Area) (South Ayrshire Council) Designation Order 2012.

Who will we share your information with?

Where necessary your information will be shared with the following:

- Police Scotland and other emergency services
- The Parking and Bus Lane Tribunal for Scotland
- East and South Ayrshire Council
- Our service provider Pinnacle

The service may make any disclosures required by law and may share information with other bodies responsible for detecting/preventing fraud or auditing/administering public funds. We will also generally comply with requests for specific information from other regulatory and law enforcement bodies where this is necessary and appropriate.

Ayrshire Roads Alliance will ensure that any external agency which receives disclosed information is fully aware of and accepts its responsibility as outlined in within the General Data Protection Regulations and the Data Protection Act 2018.

How long do we keep your information?

We will only keep your information for the minimum period necessary. After this time, information is deleted/destroyed in accordance with the respective Council's retention schedule.

Providing accurate information

It is important that we hold accurate and up to date information. If any details have changed, or change in the future, then individuals should ensure that they inform the respective Council's as soon as possible so that they can update their records accordingly.

Individuals' data protection rights

Under data protection legislation, individuals have a right to request access to information about them that Ayrshire Roads Alliance holds. Further details can be found in the respective Council's Privacy Statements.

Individuals also have the right to:

- Object to processing of personal data that is likely to cause, or is causing damage or distress
- Prevent processing for the purposes of direct marketing
- Object to decisions being taken by automated means
- In certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- In certain circumstances, transfer their data to another organisation (data portability)

Individuals can contact the respective Council's regarding their data protection rights and the processing of their data. Details of how to do this can be found on the Council's Privacy statement.

If individuals have a concern about the way Ayrshire Roads Alliance is collecting or using their personal data, they should raise their concern in the first instance with the relevant Council's Data Protection Officer; contact details to be found on the Council's main Privacy Statement, via the websites.
