INTRODUCTION

DARVEL COMMUNITY ACTION PLAN

This Community Action Plan summarises community views about:

- Darvel now
- the vision for the future of Darvel
- the issues that matter most to the community
- our priorities for projects and action.

The plan is our guide for what we - as a community - will try to make happen over the next 5 years.

DARVEL COMMUNITY FUTURES STEERING GROUP

The preparation of the Action Plan has been guided by a local steering group that brought together representatives from local organisations, businesses and interested members of the community.

LOCAL PEOPLE HAVE THEIR SAY

The Action Plan has been informed by extensive community engagement carried out over a seven month period from May 2013 to November 2013.

The process involved:

- stakeholder interviews and focus group meetings - with different groups and individuals representing all aspects and ages of the community;
- a community views survey, which was delivered to all households;
- a survey of local businesses;
- a children's views survey, conducted through the primary school
- preparing a community profile detailing facts and figures about the community;
- a Community Futures Event.

515 COMMUNITY VIEWS SURVEY FORMS WERE RETURNED FROM OUR **1,500** HOUSES
10 BUSINESS SURVEYS WERE RETURNED BY LOCAL BUSINESSES
12 STAKEHOLDER MEETINGS AND FOCUS GROUPS WERE HELD WITH LOCAL GROUPS,
 BUSINESSES, AND SUPPORT ORGANISATIONS
295 PEOPLE ATTENDED THE COMMUNITY FUTURES EVENT

**THANKS TO EVERYONE WHO TOOK PART – IT'S A GREAT RESPONSE AND
 GIVES WEIGHT TO THE PRIORITIES IDENTIFIED IN THIS PLAN**

OUR COMMUNITY NOW

FACTS AND FIGURES

We have summarised below some of the main facts and figures from the Community Profile – a report produced by the Steering Group to give a picture of Darvel now.

LOCATION

Darvel is an attractive town in the upper River Irvine Valley with the wooded slopes of the Lanfine Estate to the south and Loudoun Hill to the North. It is on the A71 Irvine to Edinburgh road and is 9 miles east of Kilmarnock. It is one of several Valley Towns which include Galston and Newmilns.

POPULATION

The population of the town is now over 3,550 (2011 census) - an increase of 5.7% in the 10 years since the previous census in 2001. During this time the most significant increase (up by 25%) is in the percentage of people of pensionable age. 28% of the population is over 60 compared with 24% for East Ayrshire and 23% for Scotland.

HOUSING

There are around 1500 houses in Darvel and this reflects a steady growth in the housing stock over the last 20-30 years. The majority of housing in Darvel is owner occupied (with a higher percentage of homes in that category compared to East Ayrshire or Scotland). However the local authority still has over 360 properties and 111 people on the waiting list for council houses.

EMPLOYMENT AND THE LOCAL ECONOMY

At one time when Darvel was the centre of the lace making industry it was said that local people were 'Darvel Bred and Darvel Fed'. Changed days now with the last of the power looms closing in 2007 and Darvel a dormer town with most of the workforce commuting to work elsewhere. Having said that there are still many small local businesses in the town - with services, retail, trades and farming the main sectors. There are still 27 working farms in the area.

The loss of the Cooperative is still missed in the community and doubly so as the building still lies empty. Similarly the loss of a hotel and B&B in the village means that there is currently no accommodation in the town – although there is the excellent Gowanbank B&B nearby. This means for example that many visitors to the Darvel Music Festival or the Walking Festival end up not staying in Darvel and the benefit to the local economy is not maximized.

ENVIRONMENT AND OPEN SPACES

The surrounding land is a mix of working farms, forestry and estates. Lanfine Estate which is used locally for walks is also of historical importance having been built by James Armour of Mauchline – the father of Jean Armour who married Robert Burns.

The most notable landscape feature is Loudoun Hill – an ancient volcanic plug and site of the Battle of Loudoun Hill in 1307. It provides an attractive backdrop to the village and there is a local path from Darvel to the Hill.

There is a good walking and cycling network of paths and routes and an annual Walking Festival. The network extends along and through the Irvine Valley and has been developed by the Irvine Valley Regeneration Partnership and our own environmental improvement group DIG (Darvel Improvement Group). The River Irvine is also an asset and the local angling club has created angling spots for people with disabilities.

Morton Park is one of the largest parks in East Ayrshire and has a lovely location by the River. Other smaller open space areas include Robertson Gardens and the Toll Gate Garden.

HERITAGE

Darvel's history and existence is closely connected to weaving and by the 1920s lace furnishings industry in the valley had become the largest in the world. Darvel is the birthplace of Sir Alexander Fleming the discoverer of penicillin. He attended the local primary school and Kilmarnock Academy.

Heritage features in the town include:

- The memorial to Sir Alexander Fleming in Hastings Square
- Weavers Cottages and houses, and water powered looms
- The Town Hall
- The Telephone Museum
- SAS and War Memorials
- Darvel Parish Church
- The Dagon Stone – a bronze age monolith?
- Chambered cairn at Loanfoot Farm, and site of Roman encampment by Loudoun Hill (now sadly no longer visible).

MAIN STRATEGIES AND PRIORITIES

These are the main strategies and priorities identified by the local community in surveys, interviews and profile and prioritised at the Community Event.

TOWN CENTRE REGENERATION AND TRAFFIC

Darvel is an attractive small country town – but is currently blighted by derelict buildings – in particular the old Cooperative building, The Turf Hotel and some Council property. The consultation for this action plan suggests there is potential to do something creative with the Cooperative building/site that would add to the village. The need to address these issues was the top priority at the Open Day Event.

There was also a need highlighted to improve parking and reduce traffic congestion, and to continue to support the work of the Darvel Improvement Group in making the town more attractive.

Main priorities

- Renovate/ remove derelict buildings in Main Street
- Village enhancement - Support the work of the Darvel Improvement Group
- Improve parking and develop safe routes to school
- Improve traffic flow and reduce HGV's through the village

COMMUNITY AND RECREATIONAL FACILITIES

The other top priority identified by the community was the need to retain the town hall, sports centre and library. They are seen as vital to the community and there was a strong view that they should be retained, developed and at the centre of community regeneration e.g. the Town Hall is key to the Music Festival, the Library could be used as a visitor information centre, the Sports Hall could be a hub providing facilities for visiting cyclists.

The Recreation Park and pavilion need upgrading to make the most of this great resource and there is a need to support young people to provide more activities for their age group e.g. there was a call for a youth club or café.

It was also thought to be worthwhile to investigate the development of a community run arts and music centre - as a potential use of one of the derelict buildings – and as a focal point for the development of Darvel's role as a 'music town'.

Main priorities

- Retain and improve community facilities – town hall, library, sports hall.
- Upgrade recreation park and pavilion
- Youth club and café
- Develop community arts and music centre

MAIN STRATEGIES AND PRIORITIES

LOCAL ECONOMY AND TOURISM

There is a real opportunity to promote Darvel's music culture, its heritage and its walking and cycling routes as a way of developing the local economy. The potent mix of the already successful music festival, the paths and walking festival, and heritage as the world centre of lace making and its fame as the birthplace of Alexander Fleming – are all there to serve the future regeneration of the community. At a more basic level there is the need to provide facilities (information, parking, toilets) that help encourage the use of local shops and services, and to look at ways of providing workspace and support for new small businesses – perhaps utilising one of the existing derelict industrial buildings.

Main priorities

- Develop Darvel as a Music Town
- Promote existing environment and heritage assets
- Develop and promote amenities, parking, facilities for visitors
- Support for existing and new small businesses

ENVIRONMENT AND HERITAGE

There is a real desire to see Morton Park developed as a major attraction for locals and visitors – suggestions from the community include high quality adventure play areas, improved all ability paths, improved drainage, more sports facilities (e.g. outdoor gym, tennis courts, putting green), improved entrances, improved rose garden.

A lot of work has gone into developing paths in Darvel and through the Irvine Valley and this needs ongoing support, development and promotion. As noted above this has real potential to support the local economy. Existing local paths e.g. to Loudoun Hill - that allow recreational access out of Darvel need immediate improvement.

There is a great opportunity to make more of Darvel's place in history as the birthplace of Alexander Fleming and its role at the centre of lace making.

Main priorities

- Improve Morton Park
- Improve, develop and promote the paths network
- Develop and promote local heritage

COMMUNITY SAFETY, CARE AND TRANSPORT

The impact of housing allocation policy has been seen to import problems from other communities and start to change the nature of the community. Darvel would request the close cooperation of the local authority housing department and local police to help address this issue.

We would like to develop more facilities and services for our growing population of elderly. There is also a desire to improve public transport services to increase their value to the community e.g. in getting direct access to nearby towns and Glasgow, and in assisting young people to travel around the area.

Main priorities

- Reduce anti social behaviour
- Develop day care and befriending services for the elderly
- Improve public transport

DARVEL

COMMUNITY ACTION PLAN

2014 - 2019

This Community Action Plan sets out the priorities for the development of Darvel over the next 5 years as determined by the community through an extensive process of community engagement organised and led by local community organisations and local residents and carried out over a five months period in 2013.

The Plan contains

- A summary of our Community Profile
- Our main likes and dislikes as identified in our Community Views Household Survey
- Our Vision Statement for the Future of Darvel
- The main themes and priorities for action
- Information on how you can stay in touch and get involved.

The Plan is for the whole community and is jointly owned by all the organisations and individuals that took part in its preparation. We will be working together to ensure its implementation over the next 5 years.

Thanks to all those who took their time to share their views and take part, and to all who gave their time voluntarily to participate in the Steering Group and the co-ordination of the Survey, and to the Vibrant Communities team of East Ayrshire Council who worked closely with the community and supported the Steering Group in carrying out all aspects of the work involved in preparing this Plan.

We are grateful to Ayrshire Leader for funding the Ayrshire 21 programme which has enabled us to prepare our local community led action plan and for the support received from East Ayrshire Council through the process of its development.

Specialist training, mentoring and support was provided by the STAR Development Group in carrying out the community engagement process and in preparing the Community Action Plan.

This project is part-financed by the Scottish Government, European Community and Ayrshire LEADER 2007-2013 Programme
