The child-led feel of the new building is good. Love the free flow between indoor and outdoors

- Q. Sleep room for 2/3 year old children would be good. Lots of children are in ECC for full day. A separate sensory room could be used as a sleep room.
- A. There is no separate room for sleep, however sleep zones can be created using flexible furniture and resources.

Netherthird ECC Staff

Very pleased with the plans for new ECC. I think the children will love the adventure part of it all.

Netherthird ECC Parent

Very informative session Questions were honestly answered. As a parent I really appreciate the chance to view the plans.

I am very excited to see something like this coming to the area. I am positive the outdoor area will be utilised well and the children will benefit greatly from it. I can't wait to see it completed and for my son to enjoy it. Perhaps introduce some animals i.e. chickens.
