

EAST AYRSHIRE COUNCIL

GOVERNANCE AND SCRUTINY COMMITTEE – 26 APRIL 2018

LOCAL CODE OF CORPORATE GOVERNANCE

Report by Chief Executive

PURPOSE OF REPORT

1. To update the Governance and Scrutiny Committee on progress in implementing the Council's Corporate Governance Improvement Action Plan for 2017/18.
2. To seek approval for the new Local Code of Corporate Governance for 2018/19 and the associated Annual Governance Statement of Assurance.
3. To seek agreement of the new Corporate Governance Improvement Action Plan for 2018/19.

BACKGROUND

4. East Ayrshire Council is responsible for and fully committed to ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for. The Council also has a statutory duty of Best Value under the Local Government in Scotland Act 2003 to make arrangements to secure continuous improvement in performance, while maintaining an appropriate balance between quality and cost; and in making those arrangements and securing that balance, to have regard to economy, efficiency, effectiveness, equal opportunities and future economic, social and environmental sustainability.
5. In discharging this overall responsibility, members and senior officers are responsible for putting in place proper arrangements (known as the governance framework) for the governance of the Council's affairs and facilitating the effective exercise of its functions. This includes setting the strategic direction, vision, culture and values of the Council; the effective operation of corporate systems, processes and internal controls; engaging with and leading the community; monitoring whether strategic priorities and outcomes have been achieved; ensuring that services are delivered cost-effectively; maintaining appropriate arrangements for the management of risk; and ensuring that the Council complies with the Statement on the Role of the Chief Financial Officer in Local Government.
6. All of these requirements are incorporated within the Council's Local Code of Corporate Governance, which was first agreed by Council in June 2002. An annual process of review has been conducted each year since then. In 2016, CIPFA/SOLACE published a new framework for Corporate Governance: "Delivering Good Governance in Local Government Framework" along with a separate Guidance Note for Scottish local authorities. The East Ayrshire Local Code of Corporate Governance for 2018/19 follows this Guidance.
7. The Guidance sets out seven core principles, namely:
 - Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.
 - Ensuring openness and comprehensive stakeholder engagement.
 - Defining outcomes in terms of sustainable economic, social and environmental benefits.
 - Determining the interventions necessary to optimise the achievement of the intended outcomes.

- Determining the entity’s capacity, including the capability of its leadership and the individuals within it.
- Managing risks and performance through robust internal control and strong public financial management.
- Implementing good practices in transparency, reporting and audit to deliver effective accountability.

ANNUAL REVIEW OF CORPORATE GOVERNANCE ARRANGEMENTS

8. An important element of the process of assurance is the need for continuous monitoring and annual review of our corporate governance arrangements. This results in the Council each year adopting a new Local Code of Corporate Governance, agreeing an Annual Governance Statement of Assurance and a new Improvement Action Plan to further strengthen our governance arrangements. This annual review process is designed to ensure that the ethos of excellent Corporate Governance is embedded in all decisions made by the Council.
9. Whilst this process of review is co-ordinated corporately and approved by the Executive Management Team, Depute Chief Executives and Heads of Service have a responsibility to ensure that their own governance arrangements are adequate and operating effectively. Each Depute Chief Executive and Head of Service is required to make an annual statement confirming that this is the case.

ACTION PLAN PROGRESS

10. Appendix 1 to this report sets out the progress made against the Council’s Corporate Governance Action Plan for 2017/18.
11. The good progress made in implementing the improvement actions outlined within last year’s Action Plan provides a clear demonstration of the Council’s overriding commitment to best practice in Corporate Governance.

UPDATED LOCAL CODE OF CORPORATE GOVERNANCE

12. The Council’s new Local Code of Corporate Governance for 2018/19 has been prepared and reviewed by the Executive Management Team and is available at Appendix 2.
13. In order to add an additional degree of challenge to the annual review of our Local Code, our Corporate Governance arrangements have been scored. To ensure a level of consistency with reviews completed in previous years, the Council’s Corporate Governance arrangements were scored using the undernoted scoring matrix.

SCORING MATRIX	
1	Nothing happened – we really haven’t thought about this, or we may have considered it but taken no or little action as yet.
2	Making a start – we’ve been thinking and working on this. We’ve got a few things going, but it is early days. We have some measurements that show we are doing okay.
3	Getting somewhere – we’ve got quite a few things going on and we are beginning to see some signs that we are doing things right. According to our measurements, we can show we are improving.
4	It is working for us – now we can see things are really working together. We are seeing the results from them steadily improving and we are meeting a lot of our targets. We are comparing ourselves with other organisations.
5	It is our normal practice – what we are doing is effective and consistent. We’re learning from our experience and we can clearly see the benefits. Our key measurements show consistent improvement over several years. We are doing well compared with other organisations.

6	We are excellent – we're working at a sophisticated level, consistently doing the right things. We use a wide range of measurements, showing strong improvements over many years. We exceed our targets and can demonstrate that we are best in class in many areas.
----------	---

14. The overall conclusion from this review of the Local Code is that the Council continues to have effective arrangements in place to protect the Council's interests and promote good governance within the Authority.
15. The format for the Local Code of Corporate Governance 2018/19, which is attached at Appendix 2, follows the streamlined approach adopted in 2014/15 which removed unnecessary duplication and provided a more robust evidence base against each of the general principles. The 2016 CIPFA/SOLACE Framework includes seven core principles and the scores applied to each are compared to those scores applied in the 2017/18 Code.
16. Key achievements/developments reflected in the new Local Code of Corporate Governance for 2018/19 include:

East Ayrshire Community Plan 2015-2030

17. The East Ayrshire Community Plan 2015 - 2030 is the sovereign and overarching planning document for the East Ayrshire area, providing the strategic policy framework for the delivery of public services by all the Partners. The Plan came into effect on 1 April 2015 and work has continued throughout 2017/18 in furtherance of the strategic priorities contained within the three thematic Delivery Plans, namely Economy and Skills, Safer Communities and Wellbeing.
18. The Community Planning Partnership (CPP) Board and the Council had their third formal joint engagement event on 21 September 2017 to consider the Single Outcome Agreement Annual Performance Report and the Integrated Health and Social Care Partnership Annual Report for 2016/17.
19. Notably in 2017/18, the CPP Board implemented the first three-yearly Community Plan review. Through the review process, which was undertaken in consultation with a range of key stakeholders, three new Delivery Plans, for Economy and Skills, Safer Communities, and Wellbeing, were developed. In addition, a new Local Outcomes Improvement Plan (LOIP) was also developed. Covering the period 2018-2021, the new Delivery Plans and LOIP were approved by the Council and CPP Board in March 2018 and came into effect on 1 April 2018.

Public Sector Reform

20. As a Council committed to delivering high quality, efficient and effective services for our local communities, it is imperative that we are able to respond effectively to the scale and pace of change taking place within the public sector in Scotland. In the last year, the Council has been effective in responding to the wider public reform agenda and has further consolidated the organisational and structural changes that have been implemented in previous years, supplemented and supported by robust governance arrangements, in respect of the following functions:
 - **Integrated Health and Social Care:** The East Ayrshire Integration Joint Board (IJB) was established on 2 April 2015 and has continued to meet regularly throughout 2017/18. At its meeting on 15 March 2017, the IJB considered a report that provided details of the engagement process with stakeholders in the development of the Strategic Plan 2018-21 and to present the findings from this activity. The final Strategic Plan 2018-21 will be presented to the Integration Joint Board at its meeting on 26th April 2018.

- **Ayrshire Roads Alliance:** The Ayrshire Roads Alliance (ARA), which was established on 1 April 2014, continues to be governed through the Ayrshire Shared Services Joint Committee. The ARA's Service Plan for 2018/19 was approved by the Joint Committee at its meeting on 8 December 2017 and provides detail on the Service's key activities, resources, organisational structure, high level Business Objectives and links to the Community and Corporate Plans of East and South Ayrshire Councils.
- **East Ayrshire Leisure Trust:** East Ayrshire Leisure Trust assumed responsibility for a range of Leisure, Culture, Community and Countryside Services on 1 July 2013. A Best Value Service Review of Leisure, Sport and Culture was completed in 2016/17 with the outcomes reported to Cabinet on 23 March 2017. The report recommended, amongst other things, to integrate the Kilmarnock Leisure Centre Trust (which operates a single facility, the Galleon Centre in Kilmarnock) with the East Ayrshire Leisure Trust. Since that time, officers from both Trusts and the Council have been progressing discussions initially with the aim of establishing new governance arrangements for the single Trust by 1 April 2018 with operating arrangements to be finalised thereafter for implementation during 2019. At the meeting of the Council's Cabinet held on 24 January 2018, Elected Members considered the future of the Galleon Leisure Centre and agreed to establish a short term Member/Officer Working Group to review the proposed options for new or refurbished leisure facilities in Kilmarnock and to report back to Cabinet on a preferred option to be funded from the Council's 10 Year General Services Capital Investment Programme. As a consequence of this decision, and noting the critical role that any new or refurbished leisure facility would likely have on both the size and structure of the new Trust, the integration of the two existing Trusts has been deferred in order to allow the Working Group sufficient time to conclude their review and for any recommendations arising therefrom to be considered by Cabinet.
- **Ayrshire Growth Deal:** In September 2016, the three Ayrshire Councils agreed to the submission of the Ayrshire Growth Deal (AGD) strategic business case to the Scottish and UK Governments. An AGD would provide the Ayrshire authorities and partners with the opportunity to focus on the major interventions which would grow the economy and create employment within the region. Subsequently, in December 2016, the three Councils were invited by the Scottish Government to act as a 'Pathfinder' region. An Ayrshire-wide Steering Group was formed to guide the Pathfinder process, comprising senior officials from each of the three Councils, as well as Directors from Scottish Enterprise, Skills Development Scotland and the Scottish Government.

The Ayrshire Growth Steering Group (AGSG) have considered a number of options regarding the best way to deliver economic development related services in the future. Following a detailed options appraisal, they have reached the conclusion that the creation of an 'Ayrshire Economic Vehicle' offers the best possibility of securing the required impact, coupled with ensuring more resilient services in the context of significant financial pressures. This approach would mean that services supporting economic development across Ayrshire are combined into a single body working alongside national agency staff in a new approach to economic development.

Governance arrangements for the Ayrshire Growth Deal and Regional Partnership require to be put in place. Cabinet approved a proposal to establish an Interim Ayrshire Development Board, comprising three elected members from the three Councils. In terms of a governance structure, the preferred model that is currently the subject of consideration is based around a sub-committee of the Ayrshire Shared Services Joint Committee.

The new Interim Ayrshire Development Board met on 25 January 2018. At that meeting, the Board agreed to progress the draft model for the delivery vehicle, and further, to

explore the aligned shared service proposal for Economic Development, Planning and Regulatory Services. This includes the principle of an Ayrshire 'single budget' approach to financing the Pathfinder, subject to further detail on how the proposal will be implemented.

On 29 March 2018, the Prime Minister, announced that the UK Government was opening talks over a new Ayrshire Growth Deal with the three Ayrshire Councils and the Scottish Government that should significantly boost the local economy and opportunities for local communities.

Fourth Strategic Self-Assessment

21. The Council's fourth Strategic Self-Assessment was completed in 2016/17 and follows those undertaken in 2005, 2008 and 2012. The Self-Assessment exercise assesses and scores the Council against the ten Best Value criteria, and uses the input of a 'critical friend' to assist the Council Management Team in challenging high level performance and developing appropriate improvement actions to address any gaps identified in our existing arrangements.
22. A key outcome from the Strategic Self-Assessment is the development of a high level Improvement Plan and this was approved by Cabinet at its meeting on 22 June 2016. An update on progress against the Plan was considered by Cabinet on 14 June 2017 and the Governance and Scrutiny Committee on 15 June 2017.

Transformation Strategy

23. The Council's new Transformation Strategy was set out in reports to Cabinet on 25 October 2017 and 21 February 2018. Council approved the proposed Transformation Strategy at its meeting on 22 February 2018 and noted that detailed actions arising from the high level workstreams that had emerged from the comprehensive 'Vibrant Voices' engagement activity would be presented to Cabinet in June 2018. This will include the development of detailed and costed project plans for six transformational workstreams, namely:
 - A Fairer, Kinder and Connected East Ayrshire;
 - Workforce Planning- Cultural Change and Service Redesign;
 - A Digitally Connected East Ayrshire;
 - A Vibrant and Empowered East Ayrshire;
 - Property and Estate Rationalisation, and
 - Income and Commercialisation.

Service Improvement Plans, Best Value Service Reviews and EFQM

24. Progress updates to Service Improvement Plans and the related Improvement Action Plans were presented to Cabinet in June 2017. Best Value Service Reviews relating to Human Resources and Health and Safety were completed in 2017/18 with further reviews scheduled to be completed early in 2018/19. A full programme of EFQM assessments were completed in 2017. A new three-year programme of Best Value Service Reviews will be developed to commence in 2018/19 alongside new three-year Service Improvement Plans, informed by the emerging detailed workstreams identified in the new Transformation Strategy.

Best Value Assurance Report

25. Audit Scotland's new framework for auditing best value was published in 2016 and the Council was the subject of detailed audit work under this new Framework over December 2017 and January 2018. This audit activity, which was carried out jointly between Audit

Scotland and the Council's external auditors, Deloitte, will culminate in the production and publication of a Best Value Assurance Report that will be considered by the Accounts Commission in May 2018.

Joint Inspection of Services for Children and Young People

26. The joint inspection of services for children and young people in East Ayrshire took place between 28 August and 10 November 2017. It covered a range of Community Planning Partnership agencies that play a key role in providing services for children, young people and families. The inspection reported positively on a number of indicators that have an impact on the health, safety and wellbeing of children and young people of all ages, from pre-birth right through to leaving school and into adulthood. It also considered the range and quality of opportunities, interventions and support that are available to children, young people and their families throughout their childhoods. The inspectors awarded two 'excellent' ratings, five 'very good' ratings and two 'good' ratings. The 'excellent' ratings were given in recognition of the impact services had on the wellbeing of families and for the extent of participation by children, young people, families and other stakeholders in policy, planning and service development.

Council and UK Parliamentary Elections

27. In 2017/18, two significant electoral contests were managed by the Council's established Elections Team.
28. **Council Elections – 4 May 2017:** The elections for all 9 of the Council's Multi-Member Wards provided elector turnout of 44.9%, with 1.9% of the received ballot papers being rejected. The election was conducted using the Single Transferrable Voting system with an eCount system used for the purposes of determining the outcome and declaration of the successful candidate. The results from the election changed the political composition of the Council with a minority SNP Administration with 14 Elected Members now in place. The full breakdown of the Council's political composition is:
- SNP – 14
 - Scottish Labour – 9
 - Scottish Conservative and Unionist – 6
 - Independent – 2
 - The Rubbish Party – 1
29. **UK Parliamentary Election – 8 June 2017:** The 'snap' UK Parliamentary Election was called during the preparatory period for the May Council Elections and added significantly to the Election Team workload. The elector turnout for the contest, which covered the constituency of Kilmarnock and Loudoun was 63.54%, with 46,590 ballot papers being counted.

ANNUAL GOVERNANCE STATEMENT OF ASSURANCE

30. A copy of the Council's proposed Annual Governance Statement for 2018/19 is enclosed at Appendix 3 of this report. This confirms that the Council's corporate arrangements for governance are robust and provides a high level summary of the Council's Governance arrangements as evidenced within the Local Code. It also gives a summary of key achievements over the last year.

ADOPTION OF A REVISED ACTION PLAN FOR 2018/19

31. The scoring exercise subjected the Council's Corporate Governance arrangements to fresh challenge and this has identified areas where our arrangements could be further developed to reflect the requirements of the Framework. These have been incorporated into a number of improvement actions, which will be implemented over the coming year.
32. Full details of the proposed 2018/19 Improvement Action Plan are set out in Appendix 4 of this report and progress on its implementation will feature in the annual Review of the Council's Corporate Governance arrangements in 2019.

POLICY IMPLICATIONS

33. The Council places a high degree of importance on the need to ensure that its arrangements for Corporate Governance are effective and continue to be the subject of ongoing review and improvement.

LEGAL, FINANCIAL, RISK AND EQUALITY IMPLICATIONS

34. None.

RECOMMENDATIONS

35. The Governance and Scrutiny Committee is requested to:
 - (i) note the process of review for the Council's Corporate Governance arrangements;
 - (ii) note the good progress made in the implementation of the Corporate Governance Action Plan for 2017/18, as set out in Appendix 1 of this report;
 - (iii) note the outcome of the scoring exercise and agree the East Ayrshire Local Code of Corporate Governance for 2018/19 included at Appendix 2 of this report;
 - (iv) approve the content of the Council's proposed Annual Governance Statement for 2018/19, as set out in Appendix 3 of this report;
 - (v) agree the proposed Corporate Governance Improvement Action Plan for 2018/19, as set out in Appendix 4 to this report;
 - (vi) note that the East Ayrshire Local Code of Corporate Governance for 2018/19, Annual Governance Statement for 2018/19 and the Corporate Governance Improvement Action Plan will be published and made available to the general public; and
 - (vii) otherwise, note the contents of this report.

Local Code of Corporate Governance 2018/19

The Council's Local Code of Corporate Governance 2018/19 reflects the requirements of the CIPFA/SOLACE Delivering Good Governance in Local Government Framework published in 2016 and the supporting Guidance Note for Scottish Authorities also published in 2016. For each of the seven core principles of good governance outlined in the Framework, there are also a set of supporting principles and specific requirements that should be reflected in local authorities' Local Codes of Corporate Governance.

The Council's assessment of compliance with the principles and sub-principles contained in the CIPFA/Solace Framework have been compared to the previous year's evaluation. An Evaluation Against Code score has been applied with last year's score noted in parentheses.

CORE PRINCIPLE 1

Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.

East Ayrshire Council Annual Governance Statement of Assurance

Scope of Responsibility

East Ayrshire Council is responsible for and fully committed to ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for. The Council also has a statutory duty of Best Value under the Local Government in Scotland Act 2003 to make arrangements to secure continuous improvement in performance, while maintaining an appropriate balance between quality and cost; and in making those arrangements and securing that balance, to have regard to economy, efficiency, effectiveness, equal opportunities and future sustainability.

In discharging this overall responsibility, members and senior officers are responsible for putting in place proper arrangements (known as the governance framework) for the governance of the Council's affairs and facilitating the effective exercise of its functions. This includes setting the strategic direction, vision, culture and values of the Council; the effective operation of corporate systems, processes and internal controls; engaging with and leading the community; monitoring whether strategic priorities and outcomes have been achieved; ensuring that services are delivered cost-effectively; maintaining appropriate arrangements for the management of risk; and ensuring that the Council complies with the Statement on the Role of the Chief Financial Officer in Local Government.

To this end, the Council has approved and adopted a Code of Corporate Governance which is consistent with the principles and recommendations of the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE) 2016 Framework Delivering Good Governance in Local Government and the supporting Guidance Notes for Scottish Authorities. A copy of the Code, the update on the 2017/18 Action Plan and the 2018/19 Action Plan can be downloaded [here](#). The Code evidences our commitment to achieving good governance and demonstrates how we comply with the governance standards recommended by CIPFA/SOLACE. The Code is reviewed and updated on an annual basis, most recently by the Governance and Scrutiny Committee on 26 April 2018.

The Council has also put in place a system of internal control designed to manage risk to a reasonable level. Internal controls cannot eliminate risk of failure to achieve strategic priorities and outcomes but can provide reasonable if not absolute assurance. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Council's strategic priorities and outcomes; to evaluate the likelihood of those risks being realised and the impact should they be realised; and to manage them efficiently, effectively and economically.

The Purpose of the Governance Framework

The governance framework comprises the systems and processes, culture and values, which direct and control the Council's activities and through which we account to, engage with and lead the community. It enables us to monitor the achievement of the strategic priorities and outcomes set out in the 2015-2030 East Ayrshire Community Plan, which the Council has adopted as its sovereign planning document and to consider whether those priorities and outcomes have led to the delivery of appropriate, cost-effective services. The governance framework was further strengthened during the year ended 31 March 2018 and will continue to be reviewed.

The Governance Framework

The following provides a summary of the main features of our governance arrangements.

The East Ayrshire Community Plan 2015-30 came into effect on 1 April 2015 and is the sovereign and overarching planning document for the East Ayrshire area. It provides the strategic policy framework for the delivery of public services by all of the Partners and is also the Council's Corporate Plan covering the 15 years from 2015 to 2030.

The Community Plan is implemented through three thematic Delivery Plans, namely Economy and Skills, Safer Communities and Wellbeing, along with the day to day work carried out by services across the Council.

The first three-year review of the Community Plan and the thematic Delivery Plans was completed in 2017/18 with new Delivery Plans in place from 1 April 2018.

The Community Plan is underpinned by the Local Outcomes Improvement Plan which provides a robust performance management framework and demonstrates a sound understanding of place and local circumstances. This understanding has informed development of our local priorities which have been identified in consultation with our communities, Partners and a wide range of key stakeholders; and we remain, as a partnership, committed to resourcing jointly the delivery of improved outcomes to realise our shared vision for East Ayrshire. The Community Plan and associated documentation can be accessed [here](#).

The Community Planning Partnership Board is supported by robust governance arrangements and a third formal joint engagement event between the Council and CPP Board was held on 21 September 2017 to consider the Single Outcome Agreement Annual Performance Report, and the Integrated Health and Social Care Partnership Annual Report. Similar arrangements are proposed for 2018/19.

Our Community Planning structures are designed to ensure that people and communities are genuinely engaged in decisions about public services which affect them and, in this regard, we conducted our latest Community Planning Residents' Survey in 2017

The Council's new Transformation Strategy was approved by Elected Members in February 2018 and is designed to ensure that our services remain financially sustainable in the current economic climate. The Strategy identifies 6 key workstreams and detailed actions in support of these high-level themes will be considered by the Council's Cabinet in June 2018. The development of the Transformation Strategy was informed by an extensive 'Vibrant Voices' consultation and engagement process.

The challenging financial environment in which the Council is currently operating has required an immediate response to deliver the level of efficiencies required. The effective management of the Council's Revenue Budget, within the context of the current challenging financial situation, has been achieved through effective financial stewardship to ensure that the required level of cost reductions were realised across all Council services. The recent spending review has resulted in a further reduction in funding available but the Transformation Strategy has proved sufficiently robust to ensure that the Council has been able to set a balanced budget for 2018/19 without the need to change direction.

Policy and decision making is conducted through the Council's decision-making structure, which includes the Cabinet and Governance and Scrutiny Committee. Cabinet has responsibility for discharging all of the Council's functions except those reserved to the Council and those matters specifically delegated to other statutory, quasi-judicial committees. The Governance and Scrutiny Committee is fully compliant with Audit Committee principles and full details of its responsibilities

are available [here](#). The Governance and Scrutiny Committee undertakes the core functions of an audit committee, as identified in CIPFA's Audit Committees: Practical Guidance for Local Authorities & Police (2013) report by providing an independent and high-level resource to support good governance and strong public financial management within the Council. This includes the satisfaction that the Council's assurance statements are an accurate reflection of the current position, the internal audit function is effective and supported by committee and that risk management arrangements are considered effective.

The Governance and Scrutiny Committee considers the reports and recommendations of external audit and inspection agencies and their implications for governance, and risk management or control, and supports effective relationships between external audit and internal audit, inspection agencies and other relevant bodies, and encourages the active promotion of the value of the audit process and review the financial statements. The committee considers the external auditor's opinion and reports to members, and monitors management action in response to the issues raised by external audit. These arrangements ensure that the Council has processes and procedures in place to ensure that it fulfils its overall purpose, achieves its intended outcomes for service users and operates in an economical, effective, efficient and ethical manner, as prescribed in the CIPFA Audit Committees: Practical Guidance document.

We have continued to enhance and strengthen our internal control environment through updating and introducing new policies and procedures. The Scheme of Delegation sets out the remit of Elected Member Portfolio Holders and the extent of delegations made to Committees and officers under the principle that decisions should be made at the lowest or most local level consistent with the nature of the issues involved. The Council also has Financial Regulations and Standing Orders relating to contracts in place and all of these procedural documents are regularly reviewed.

The Council's system of internal financial control is based on a framework of regular management information, financial regulations, accounting policy bulletins, administrative procedures, management supervision and a system of delegation and accountability. Development and maintenance of the system is undertaken by managers within the Council. In particular, the system includes:

- Comprehensive budgeting systems;
- Measurement of financial and other performance against targets;
- Regular reviews of periodic and annual financial reports, which indicate financial performance against the forecasts and targets;
- Clearly defined capital expenditure guidelines;
- Performance relating to the Leisure Trust, Ayrshire Roads Alliance and Health and Social Care Partnership; and
- Formal project management disciplines, as appropriate.

Cabinet and the Governance and Scrutiny Committee receive regular East Ayrshire Performs reports, which include the elements listed above.

The Council's approach to risk management is well embedded with a Corporate Risk Register supported by Departmental Risk Registers and regular reports are provided to the Council Management Team and Elected Members. The Corporate Risk Register is presented periodically to Cabinet and the Governance and Scrutiny Committee as part of the East Ayrshire Performs reporting framework. The Council's business continuity strategy has been cascaded down through the organisation with each department and service holding individual business continuity plans.

We have a Whistleblowing Policy and Codes of Conduct for employees and Elected Members, and high standards of behaviour are supported by employee contracts of employment and annual EAGER reviews, which identify individual training and development requirements. An Elected Member Learning and Development Strategy is well established and Job Outlines for Elected

Members, including Members of the Governance and Scrutiny and Police and Fire and Rescue Committees are in place. A training needs analysis is undertaken on an annual basis and individual Development Plans are subsequently agreed for all Elected Members. The Elected Members induction, training and development arrangements were reviewed in 2016/17 in preparation for the new Council being elected following the Local Government Elections in May 2017. The elections for all 9 of the Council's Multi-Member Wards provided elector turnout of 44.9%. The results from the election changed the political composition of the Council with a minority SNP Administration with 14 Elected Members now in place.

Service Improvement Plans for all Council Services are in place and annual progress updates relating to the Action Plans are presented to Cabinet. New three-year Service Improvement Plans will be developed in 2018/19 to reflect the updated Community Plan, Local Outcome Improvement Plan and the Council's new Transformation Strategy. These provide the link between service priorities and Community Planning and Council strategic priorities and outcomes; link service performance with financial and other resources and play a pivotal role in identifying and delivering service improvements and efficiency.

The Council monitors performance using an Electronic Performance Management System (EPMS), which is populated with a wide range of performance indicators agreed following a comprehensive review of performance indicators across all Council services. These indicators inform the Chief Executive's, Depute Chief Executives' and Heads of Service Performance Scorecards all of which are updated with real time period performance information and reported and monitored using EPMS. In 2017, the Council moved to a new Performance Management Platform (Pentana), thereby improving functionality and accessibility of performance and management information and making it easier to share performance information within the CPP.

The Council has in place a strong and embedded process of self-assessment. Our comprehensive approach to self-evaluation comprises the Council-wide Strategic Self-Assessment of performance undertaken by the Council Management Team supported by an external critical friend, the aim of which is to ensure that the Council continues to remain well placed to respond to and meet the requirements of Best Value. The Council's fourth Strategic Self-Assessment was completed early in 2016/17 with the related Improvement Plan being approved by Cabinet at its meeting on 22 June 2016. A progress update against the Improvement Plan was presented to Cabinet and the Governance and Scrutiny Committee in June 2017.

The Council's most recent Employee Attitude Survey was also concluded in 2017 with the findings of the Survey being reported to Cabinet in January 2018. Improvement Actions are now being developed by Services to respond to the issues raised.

Statutory Roles

The Council's procedural documentation clearly details the decision making structure. This includes Scheme of Delegation; Standing Orders; Standing Orders relating to contracts; Contract Procurement Protocol; Financial Regulations; Local Government Access to Information Registers; Departmental Service Descriptions; Officer delegated responsibility; and the role of Elected Member portfolio holders.

The Council's Scheme of Delegation designates the Chief Executive as the Council's Head of Paid Service in terms of the Local Government and Housing Act 1989. This requires the post holder to carry out the specified duties associated with this statutory role, including responsibility, where it is appropriate, for setting out proposals and reporting to Council, in relation to the undernoted matters:

- The manner in which the discharge by the authority of their different functions is co-ordinated;
- The number and grades of staff required by the authority for the discharge of their functions;

- The organisation of the authority's staff; and
- The appointment and proper management of the authority's staff.

The Chief Governance Officer, and Solicitor to the Council, acts as Monitoring Officer and ensures that the Council acts within legal and statutory requirements.

The Depute Chief Executive and Chief Financial Officer (Economy and Skills) is the proper officer of the Council with statutory responsibility for the administration of its financial affairs for the purposes of Section 95 of the Local Government (Scotland) Act 1973 and is a member of the Executive Management Team. This reflects best practice identified by Audit Scotland. Officer responsibilities are reflected in the Job Description for the Depute Chief Executive (Economy and Skills) and Chief Financial Officer and the Council's Financial Regulations, which confirm that the Depute Chief Executive and Chief Financial Officer (Economy and Skills) shall be responsible for the administration of the financial affairs of the Council and shall act as a financial adviser to the Council, Cabinet and all Committees.

The Council's Scheme of Delegation designates the Head of Children's Health, Care and Justice Services as Chief Social Work Officer in terms of the Social Work (Scotland) Act 1968 and requires the post holder to carry out the specified duties associated with this statutory role by ensuring the provision of effective, professional advice to Elected Members and officers in relation to the provision of social work services. As part of the Council response to the legislative changes brought about by the Public Bodies (Joint Working) (Scotland) Act 2014, the management of Social Work Services were transferred to the Integration Joint Board with effect from 1 April 2015.

The Local Authority Accounts (Scotland) 2014 Regulations which came into force on 10 October 2014 require a local authority to operate a professional and objective internal auditing service. The long standing internal audit arrangements within East Ayrshire Council fulfil this obligation. The internal audit service must be provided in accordance with recognised standards and practices in relation to internal auditing. Recognised standards and practices are those set out in the Public Sector Internal Audit Standards (PSIAS).

Review of Effectiveness

During 2017/18, East Ayrshire Council continued to put in place appropriate management and reporting arrangements to enable it to be satisfied that its approach to corporate governance is both appropriate and effective in practice. Specifically, the Council's governance arrangements have been reviewed and tested against the requirements of the CIPFA/SOLACE Framework. Whilst this process of review is co-ordinated corporately and approved by the Executive Management Team, Depute Chief Executives and Heads of Service have a responsibility to ensure that their own governance arrangements are adequate and operating effectively. In line with the CIPFA/SOLACE Framework, each Depute Chief Executive and Head of Service is required to make an annual statement confirming that this is the case.

The Internal Audit function within East Ayrshire Council is directly responsible to the Chief Executive for the independent appraisal of the Council's systems of internal control. During 2017/18 the Internal Audit section operated in accordance with the Public Sector Internal Audit Standards (PSIAS) which were introduced on 1 April 2013. External Audit subject the work of Internal Audit to annual review, Deloitte LLP, the Council's current external auditors reflect that review in their annual report with no issues arising to date.

Internal Audit's fifth annual Internal Quality Assessment (IQA) for 2017/18, as required by the PSIAS, was reported to the Governance and Scrutiny Committee on 26 April 2018 with no significant issues arising. A separate report was also considered by Committee reporting the outcome of the first External Quality Assessment (EQA) of Internal Audit in line with PSIAS obligations. The EQA was carried out by an independent assessment team and concluded that,

“East Ayrshire Council’s Internal Audit Service complies with the main requirements of the PSIAS”. The EQA was carried out as an independent validation of the 2017/18 IQA process making specific reference to that exercise, “Of 197 areas within the Standards (both Attribute and Performance), we found that the Internal Audit team had self-assessed compliance with the recommended practice within the Standards: fully compliant in 187 areas (95%) and partially compliant in one area (0.5%). Nine areas were deemed not applicable (4.5%)”. The EQA also concluded that, “the service is well positioned within the organisation and a highly valued team that makes an active contribution to the overall Council governance arrangements”.

Individual internal audit assignments can result in sound assurance. The Internal Audit annual opinion is based on a programme of selective testing so it can never be absolute. The most that Internal Audit can provide in their annual opinion is reasonable assurance on the Council’s systems of internal control using a risk-based programme of work. During 2017/18, Internal audit opinions for completed individual assignments ranged from reasonable through to sound assurance, with a number of assignments currently being completed. On the basis of selective testing of key controls, it can be concluded that, in the main, controls were generally operating as expected during the period under review. A number of recommendations have been made by Internal Audit to further improve controls through action plans developed with management to address improvements. Internal Audit has also undertaken a small number of investigations resulting in improvement actions being agreed with management. Controls issues identified during these investigations are not deemed to significantly impact on the overall annual assurance for the Council. Internal Audit’s overall opinion, based on the work carried out, and in line with PSIAS requirements, continues to be that reasonable assurance can be placed upon the adequacy and effectiveness of the Council’s framework of governance, risk management and control in the year to 31 March 2018. The objectives of internal control have been substantially met. In line with established practice Internal Audit’s Annual Report for 2017/18 was reported to the Council’s Governance and Scrutiny Committee on 26 April 2018.

Improvements Proposed

The system of governance (including the system of internal control) provides reasonable assurance that assets are safeguarded; that transactions are authorised and properly recorded; that material errors or irregularities are either prevented or would be detected within a timely period; and that significant risks impacting on the achievement of our strategic priorities and outcomes have been mitigated. The review carried out in 2017/18 highlighted improvements that could be implemented in some areas and these are contained within the Corporate Governance Improvement Plan for 2018/19.

Conclusion

We consider the governance and internal control environment operating during 2017/18 to provide reasonable and objective assurance that significant risks impacting on the achievement of our principal strategic priorities and outcomes will be identified and actions taken to avoid or mitigate their impact. A number of improvements are proposed to further strengthen our governance arrangements and these are set out in the improvement action plan 2018/19. Implementing the action plan is a priority and progress will be reported to the Governance and Scrutiny Committee.

Systems are in place for regular review and improvement of the governance and internal control environment. The Council will continue to review its corporate governance arrangements and take any additional steps as are required to further enhance these arrangements and will review their implementation and operation as part of the next annual review.
