

Hello Mauchline Community, Friends & Partners,

We are happy to share with you some positive community updates we have supported and witnessed around the village. Along with some great overall progress made by Mauchline CARS.

As part of our contribution to support the Mauchline Holy Fair this year we also donated funds to the Community Council which was allocated towards their purchase of this years hanging baskets.

Darran, our Project Officer supported the Mauchline Community Council installing the baskets in time for the Holy Fair. We would like to take this opportunity to thank the Mauchline Community Council for the continuous hard work and dedication they offer to our village in delivering this and many other projects.

Community support needed

Due to unforeseen circumstances Mauchline Community Council are still low on volunteers to support the watering of these baskets over the next few weeks.

Therefore if you could spare an hour in the evening from 6.00pm to do so, any support you can offer would be greatly appreciated. All materials and instructions supplied, please contact the Community Council to offer your support.

Additional funding secured

In collaboration with Mauchline Community Council we recently submitted a bid for additional funding from the Renewable Energy Fund (REF). The funds are planned to be utilised to support the manufacture and install of some additional street furniture around the village.

We are very happy to share with you that we have been successful in our application allowing us to progress with this project. The works planned include;

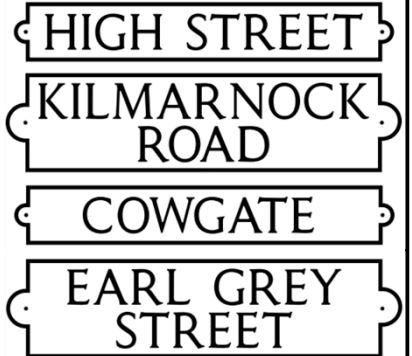

- New benches at the side of the Fairburn Hotel, with the current bench being relocated to the rear of the carpark,
- New bench at Poosie Nansies and The Cross.
- New planters at The Cross and the rear of Loudoun Street Carpark

We would like to take this opportunity to thank all parties involved and also to thank the Renewable Energy Fund in their support of our project.

Traditional Street Signs

As part of our public realm improvements we plan to replace some of the street signage around our Conservation Area.

You may have noticed some of these have already been installed. The signs will be installed in two phases to accommodate the properties that are scheduled to receive restorative works through Mauchline CARS grant funding.

If you would like any further information regarding the progress of Mauchline CARS, please do not hesitate to contact us.

Yours sincerely,

A handwritten signature in black ink that reads "Darran".
