

EAST AYRSHIRE CHILD PROTECTION COMMITTEE

PRACTITIONER BRIEFING NOTE

NO 18

TOPIC: MANAGING RISK IN SCHOOLS AND OTHER SETTINGS

BRIEFING: The Centre for Youth & Criminal Justice (CYCJ) has produced an information sheet which offers support for Named Persons and other professionals when making decisions about Risk Management with young people involved in offending behaviour.

Embedded in the information sheet is a further paper written by Stuart Allardyce (Barnado's) and Jill McAfee (SCRA) to help professionals navigate some of the issues further to a young person being charged with a serious offence and to promote robust child centred practice with this challenging service user group.

The link below will take you to the CYCJ's info sheet 49 and will be of assistance to practitioners to manage and reduced risks/confusion about how they meaningfully engage with young people while criminal allegations remain outstanding against them.
